The above records unequivocally vindicates that, the election to 1-Tripura East PC and the bye-election to 7-Ramnagar AC which is a part of same parliamentary constituency were not held in a free, fair and normal manner. Such mismatched polling percentage may happen only when the booths are captured and completely rigged in organized manner. This polling mis-matching justifies the demand of the left Front as well as the INDIA Bloc to countermand both the above elections and arrange a fresh poll to prevent robbing off the people's mandate and for protecting the sanctity of the democracy.

Yours Sincerely,
