COMMUNIST PARTY OF CHINA (CPC)

18 March 2025, Beijing

Dear Comrades,

Delighted to learn that the Communist Party of India (Marxist) [CPI(M)] will convene its 24th Party Congress, the International Department of the Central Committee of the Communist Party of China (CPC) wishes to extend our warmest congratulations to you and wishes the Congress a complete success.

As an important left force in India with a century-long history, the CPI(M) has long been committed to advancing economic and social progress of India. We believe that the Congress will serve as an opportunity for the CPI(M) to achieve new development and made contributions to promoting regional prosperity and progress.

The international landscape and world order are now in a new round of transformation. An improving China-India relationship serves the common interests of both countries and the region. The CPC and the CPI(M) have long maintained friendly exchanges, which has played a significant role for facilitating mutual understanding and practical cooperation between our two sides. Under the new circumstances, the CPC stands ready to strengthen exchanges and strategic communication as well as experience sharing of party and state governance with the CPI(M) and other Indian political parties, so as to promote continued progress of China-India relations as well as peace and stability of the region.

**International Department
Central Committee
Communist Party of China**

WORKERS' PARTY OF KOREA (DPRK)

Pyongyang, April 2, 2025

24th Congress of the Communist Party of India (Marxist)
Madurai

The Central Committee of the Workers' Party of Korea extends its hearty congratulation to the 24th Congress of the Communist Party of India (Marxist) and through the Congress, also sends its warm and comradely greetings to the entire members of your Party.

We believe the 24th Congress of your Party will be an important occasion setting the new milestone in strengthening the Party's organizational base and mass foundation.

Expressing our conviction that the long-standing friendship and cooperation between our two Parties would further develop in the future, we sincerely wish your Party Congress great success.

**Central Committee
Workers' Party of Korea**

LAO PEOPLE'S REVOLUTIONARY PARTY

12 March 2025

Dear Comrades,

On the occasion of the XXIV Congress of the Communist Party of India (Marxist), on behalf of Lao People's Revolutionary Party Central Committee, party members and Lao people, we would like to express our warm congratulations and best wishes to the delegates of Congress and through to the delegates to party members and the entire Indian people.

The Congress of the Communist Party of India (Marxist) will be held amidst the regional and international situation continue to be more chaotic and complicated. This Congress is not only an important political event for the Communist Party of India (Marxist), but also indicating its unstoppable growth. We are confident that the resolution of the Congress and various important documents adopted by the Congress will be a direction for the Party in the coming years to contribute the mission of building and developing India and bringing prosperity to the Indian people as well as to continuously raising the role and influence of the party in the political arena in India.

May the XXIV Congress of the Communist Party of India (Marxist) gloriously succeeded.

May the friendly relations between the Lao People's Revolutionary Party and the Communist Party of India (Marxist) be further enhanced for the benefits of Lao and Indian peoples as well as for the mission of building peace, friendship and cooperation for development in the region and the world at large.

Lao People's Revolutionary Party Central Committee

COMMUNIST PARTY OF VIET NAM (CPV)

To
Central Committee
Communist Party of India (Marxist)

Dear comrades,

On the occasion of the XXIVth National Congress of the Communist Party of India (Marxist) convening from April 2 to 6, 2025, the Communist Party of Viet Nam would like to convey the warmest congratulations.

Over the past years, the Communist Party of India (Marxist) has always championed in strengthening the solidarity of the Left movement, making many important contributions to the struggle to protect the people's livelihood, democracy and legitimate rights of the working people and minority communities.

We believe that the important resolutions adopted at the XXIVth Congress of the Communist Party of India (Marxist) would envision concrete directions and goals to help enhance your Party's position and influence in the Indian politics, and make positive and significant contributions to the cause of building a peaceful, unified, democratic and prosperous India.

May the XXIVth Congress of the Communist Party of India (Marxist) be a resounding success.

May the traditional friendship and excellent cooperation between our two Parties, the peoples of Viet Nam and India as well as between the State of Kerala and provinces of Viet Nam be further consolidated and flourish.

With best regards,

**The Central Committee
The Communist Party of Viet Nam**

COMMUNIST PARTY OF AUSTRALIA (CPA)

16th March 2025

Comrade MA Baby
Member, Polit Bureau
Head, International Department
Communist Party of India
(Marxist)

Dear Comrade,

The Communist Party of Australia (CPA) sends fraternal greetings to our comrades of the Communist Party of India (Marxist) on the celebration of their 24th Congress being held in the city of Madurai, Tamilnadu on 2-6 April 2025.

The upcoming congress is an opportunity for a collective discussion of the national and international situation which involves the entire Party membership. Party members will also discuss the draft political resolution that will be before congress delegates. The Congress will also have the task of electing a new party leadership.

Thank you for sharing your draft political resolution which has a very good analysis of the international situation which we share many of the views.

The CPA regards highly the fraternal relationship between our two parties and it is in this spirit that we salute the leadership, membership and delegates to the 24th Congress.

We wish you all the very best in your deliberations and trust that the outcomes of your congress will be a step forward in strengthening working class solidarity and power for all the Indian people.

We are also confident that the struggle against imperialism that our two parties carry out in Australia and India is an important part of our work towards a socialist future in our countries.

**Communist Party of Australia
International Department**

COMMUNIST PARTY OF BANGLADESH (CPB)

20 February, 2025
Dhaka. Bangladesh

To
The Central Committee
Communist Party of India (Marxist)

Dear Comrade,

We are happy to know that 24th Congress of your party is going to be held on 2-6 April this year in Madurai, Tamilnadu. The 24th Congress of your party is being held in the year when South Asia is facing serious aggressiveness from religious extremist political forces and authoritarian regimes. Simultaneously, the whole world is experiencing imperialist war mongering in Ukraine, Palestine and many parts of the globe. We all understand that it is an outcry of global capitalism which is already in an obvious condition of selfdecaying. Continuous decline of US dollar monopoly and rise of Global South strongly proclaims potentials of socialism. Our Party calls upon left and democratic forces of this region to enhance struggle to build up alternative 'pro-people currency exchange system' to combat imperialist currency monopoly.

We are attentive of the importance of your congress. It is going to be held under a complex situation in your country. The 24th Congress of your Party meets at a time when BJP led communal government deepens its attack on working class of India as well as against communist and progressive forces. The aggressive continuation of the Hindutva drive by the BJP government and its allies through various State-sponsored activities, such as the inauguration of the Ram temple in Ayodhya in January 2024 and the passing of various laws in the BJP-ruled states targeting Muslim minorities explicitly exposed violation of federal character of the Indian constitution and heavily disrupt the communal harmony in India. Moreover, such policies providing advantages to other religious fundamentalists in this region. At the same time they are aggressively implementing neo liberal economic policy, strengthening communal-corporate nexus and maneuvering to make India a junior strategic partner of USA and imperialism. In addition, Indian far right political forces along with their neo fascist communal allies utilizing Indian ruling bourgeoisie to advance a domineering approach to neighboring countries including Bangladesh. Their disregard to compliance of International Laws for resolving 54 joint-river water sharing with Bangladesh through peaceful manner depriving

working-class of both countries and increasing difficulties. Indeed the assault of capitalism-imperialism in this region calls for a new regional coalition of all anti-imperialist forces of the region, for raising to a qualitatively new level of unity, cohesion, cooperation and coordination of the struggles of these forces all over the world.

We are confident that your party which has a long and glorious history and tradition and a matured leadership that will be able to formulate appropriate political and tactical line in order to lead the Indian working class and other working people of India in their struggle against this danger and towards emancipation of the toiling masses of India. We also believe and hope that Indian people who have a long history of anti-imperialist struggle, democratic practice and secular ideas will march forward under your leadership and hold high the banner of democracy, secularism and socialism.

In our country, we are passing through a very critical period. Because of unprecedented corruption, plundering in national economy, destruction of democratic norms and electoral system, Sheikh Hasina led Awami regime has fallen by a popular uprising led by united students and common masses. Our party as part of our three decade long standing political line to over through the bipolar bourgeoisie regimes and build up left democratic alternative in national politics took part in this popular uprising. Because of the lack of organizational strength our party and Left Democratic Alliance missed the leadership of this uprising. Taking the advantage of this vacuum, communal fundamentalist forces are plan fully carrying forward their anti-national agenda of reverting our country back to the abandoned reactionary Pakistani ideology. They have infiltrated within the interim government and trying to influence the constitutional reform and policy reforms initiated by the interim government. Jamat-e-Islami and Hefazote Islami are the most notorious among them. These forces are utilizing the failure and bankruptcy of bourgeois rule that has been going on for the past four decades and trying to drag country's military in the politics. Also they are in many extent posing threat to religious and ethnic minorities. Meanwhile, the NGO bossed fueled by US imperialism and its allies who are influential components of current interim government, carrying forward the neo liberal agenda and so called doctrine of de-politicization. Our party raised the slogan of building left democratic alternative in order to replace bourgeois parties and demanding a general election by December 2025 along with some necessary reform to ensure a credible, free and fair parliament election. Considering the current critical situation, we believe that only a legitimate and democratically elected political government can

uphold the aspiration of common people for democracy, peace and livelihood.

Dear Comrades,

We take pride to recall that CPI(M) and CPB are two parties which were born and grew up in its earliest years as parts of the same undivided Party during the days of the British colonial period. The partition of India in 1947 necessitated the formation of CPB as an independent and separate Party. However, over the last decades inspite of being two independent parties we have stood besides each other with shining bond of revolutionary fraternity and uninterrupted mutual cooperation. We are committed to carry forward this exceptionally friendly relation between our two parties.

We wish a grand success of your 24th Congress.
Long live proletarian internationalism.
Long Live friendship between CPI(M) and CPB.

Shah alam

(Md. Shah Alam)
President

(Ruhin Hossain Prince)
General Secretary

WORKERS PARTY OF BANGLADESH (WPB)

Dear Comrades,

The Workers Party of Bangladesh is happy to greet the XXIV Congress of the Communist Party of India (Marxist) and wishes the Congress a success. We are confident that discussions you will be having from 2nd to 6th of April 2025 in Madurai, Tamilnadu, in relation to this Congress will not only strengthen your party, Communist Party of India (Marxist) and also enrich the international Communist movement.

Comrades,

We have gone through the document [the Draft Political Resolution for 24th Congress of CPI(M)] analysing the current political situation. The international situation as depicted in your document, we as a whole do almost have the same view, specially i) the left made gain in Columbia, Mexico, Brazil, Uruguay and Sri Lanka; ii) the conflict between US and China is intensifying; iii) the Israeli Genocide committed in Palestine, with the backing of US administration and its allies; iv) the fall of Assad, the end of the last remaining secular state in West Asia; v) the war in Ukraine and the economic sanction that were imposed upon Russia by US and its allies failed to cripple the Russian economy; vi) increasing tension in the Asia Pacific region; vii) growing military expenditure throughout the world due to US; viii) the failure of UN in relation to Gaza, Sudan, Ukraine, Congo etc.; ix) evaluating BRICS as a forum, that can challenge the US led uni-polarity schemes and x) the role of neoliberal policies in enhancing economic inequality but also erode democratic institutions as well as exposing the limitations of liberal democracy.

Comrades,

In relation to your internal matters, your evaluations, we would like to respect. In relation to the recent happenings of Bangladesh has been illustrated in your document at para 1.39, 1.40 and 1.41. We have already made a conjunctural report of Bangladesh's recent development, which has been duly sent to you for your fraternal consumption. In this respect, we would like to make an appeal to you for taking a resolution in relation to the release of Comrade Rashed Menon, President of Workers Party of Bangladesh, who has been arrested by the present government, who is guided by the neoliberalist and extreme religious rightist forces of our country.

Comrades,

Our two countries, India and Bangladesh, along with the two parties, Communist Party of India (Marxist) and Workers Party of Bangladesh do in some aspect share a common heritage and history and legacy. We would like to reiterate your call, (as on 31.10.2019 in relation to your solidarity message on the 10th Congress of Workers Party of Bangladesh) let us try to live up to the expectations of our respective freedom fighters and heroes of the liberation struggles and to do so let us create and strengthen the class struggles for the establishment of a society free from exploitation.

In the conclusion, we would further wish the 24th Congress of Communist Party of India (Marxist) a great success.

Fraternally

**Central Committee
Workers Party of Bangladesh**

WORKERS' PARTY OF BELGIUM (PTB)

March 7, 2025

Dear Comrades,

We extend our warmest comradely greetings to all delegates and members of CPI(M) on the occasion of your XXIV Congress, to be held from 2–6 April 2025 in Madurai, Tamilnadu. This historic gathering, which will deliberate on critical political and organizational questions, reaffirm and update your program, and elect a new leadership, comes at a pivotal moment in the struggle against authoritarianism and imperialism.

Our Party salutes your unwavering commitment to advancing the cause of socialism amidst the profoundly challenging political conditions in your country. Over the past decade, India has known intensified attacks on democratic rights, marginalized communities, and the working class. In this context, your Congress's discussions on building resistance, strengthening working-class unity, and charting a socialist alternative carry immense significance.

We are looking forward to develop the collaboration between our parties further. The ideological, political and organizational strength of your party is very important to develop a global counter-offensive against imperialism and to build a broad front against war, militarisation and fascisation, and for peace, cooperation and solidarity. Your domestic and international struggle against reactionary forces inspires comrades across borders, reminding us that the fight for socialism is both a national and international duty.

By conveying a message of solidarity to your XXIV Congress, we express our shared resolve to combat imperialism, neoliberalism, and communal hatred, and to advance the vision of a socially just and democratic society. We are confident that your party will emerge stronger, more united, and ever more determined to confront the challenges ahead.

In solidarity,

**Peter Mertens Secretary General
Workers' Party of Belgium (PVDA-PTB)**

COMMUNIST PARTY OF BRAZIL (PCdoB)

Brasília, March 13, 2025

Dear Comrades,

The Communist Party of Brazil (PCdoB) warmly welcomes the holding of the 24th Congress of the Communist Party of India (Marxist).

This important event takes place at a crucial moment. The far right is gaining political ground worldwide, but at the same time, there is growing resistance from peoples and nations against the hegemonic power of the declining U.S. imperialism. Inter-imperialist contradictions are also intensifying, creating opportunities for the forces of national sovereignty, justice, and world peace to raise their banners.

The CPI (M) has been at the forefront of the struggle against the far right in India, and the resolutions and guidelines resulting from the congress debates will be of great value to our common fight against fascism, always with the goal of building socialism and communism on the horizon.

We wish the 24th Congress great success and express our desire to further strengthen the longstanding ties of friendship between the PCdoB and the CPI (M).

Long live the 24th Congress of the CPI (M)!

Long live proletarian internationalism!

Ana Prestes
Secretary of International Relations

COMMUNIST PARTY OF BRITAIN (CPB)

Dear Comrades,

Greetings to the Communist Party of India (Marxist) on the occasion of your XXIV Congress

The Communist Party of Britain sends our warm greetings and best wishes for every success to the XXIV Congress of the Communist Party of India (Marxist).

We are confident that this Congress will be a step forward in reviewing the work of the CPI(M) and strengthening your essential role in building unity for peace, democracy, and socialist advance in India.

Britain plays a major role in the global imperialist system. Our Party is devoting our efforts in the struggle for peace, against NATO and war, in solidarity with those people worldwide that face imperialist aggression and intervention and against our own ruling class's complicity in the crimes that are being perpetrated by Israel against the Palestinian People. Like your Party, one of our main priorities is to campaign for an end to the genocide in Gaza and for an independent Palestinian state.

We will continue to strengthen our cooperation forged in over a century of joint struggle fighting colonialism, imperialism and racism. Together we will advocate for communist unity and for an international policy of peace, friendship, and cooperation between all peoples.

We wish your Party every success in building a stronger CPI(M), developing revolutionary unity and a powerful a Left and Democratic Front of the working class, peasantry, artisans, and allies.

We salute the memory of our dear comrade and close friend Sitaram Yechury, an exemplary leader of the communist movement in India and internationally.

Long live the Communist Party of India (Marxist)!

Long live friendship and solidarity between the CPI(M) and the CPB!

Rob Griffiths, General Secretary, Communist Party of Britain (CPB)

COMMUNIST PARTY OF BURMA (CPB)

Dear Comrades,

We hereby send our heartfelt felicitation to the Twenty-fourth Congress of the Communist Party of India (Marxist) in Tamil Nadu, India. We must admit that as a party from a nation that is deeply involved in civil war for many decades, we do appreciate and admire the condition of your party to hold congresses and reiterate the international and internal political stand of your party. Your good opportunity of being able to meet with the comrades from all over the world is also a point of our envy.

However, we admit that how much efforts you would have made to hold congress like these. Through the efforts of all levels of your party and supporters of India, the congress has now come true. We are assured that it will bring brighter future and more victories for the proletarian the world over.

Long Live the Communist Party of India (Marxist)!

**Central Organizing Committee
Communist Party of Burma.**

COMMUNIST PARTY OF CATALONIA (PCC)

Dear comrades,

Receive warm greetings from Communists of Catalonia to the leadership and all the delegates to the 24th Congress of the Communist Party of India (Marxist). We hope, and we are sure, that the discussions in your congress will strengthen the party and its position within the politics and the working class in India.

Your congress is held in important and interesting times. We're facing a steady decline of the liberal order, specially the EU, but also the US imperialism, and its histrionic leaders. And on the other hand, the rise of new international powers and multilateralism. The increasing of military expenditure in Europe, the war in Ukraine, the genocide against Palestinians, or the genocide against alawites in Syria.

From BJP in India to Vox in Spain, the rise of fascism is a threat from the capitalist class against the workers of all the world. In this sense, is more indispensable than ever the reinforcement of progressive and democratic forces, specially the revolutionary and communist ones. Just a strong antifascist and popular movement will be able to stop this threat against the whole humanity.

We hope that we can read the conclusions of your discussions, and also we hope to strengthen the relationship between our sister parties, exchanging experiences and fighting together against global capitalism and imperialism.

With best wishes to your work and discussions, Long live the proletarian internationalism!

Long live the Communist Party of India (Marxist) and its 24th Congress!

**International Relations Secretariat
Communists of Catalonia**

COMMUNIST PARTY OF CHILE (PCC)

Santiago de Chile, March 2025

Dear Comrades of the Communist Party of India (Marxist)

Please accept the fraternal and revolutionary greetings of the Communist Party of Chile on the occasion of your 24th National Congress.

Comrades,

In this era of neoliberal globalization and its enormous political, economic, cultural, social, and ideological complexities, no region or country in the world remains untouched by its consequences. We are certain that every Party of communists, regardless of the country in which we live, faces the challenge of analyzing the international balance of forces in the peoples' struggle to transform our societies and the world—a struggle in which your country plays a decisive role.

Humanity is living through times of deep concern due to the profound crisis of capitalism in its neoliberal imperialist form, which is dangerously seeking to rebuild its strength. To do so, it employs fratricidal wars and the resurgence of fascism, with all that this ideology entails: racism, homophobia, xenophobia, anti-communism—in short, hatred and crimes against all who think differently from the world order based on unipolarity and political and economic coercion.

Many peoples and governments are striving to break free from this order and are moving toward creating multipolar structures that do not obey the IMF or global banking, rebelling against blockades and against economic agreements that only fill the pockets of large transnational corporations rather than ensuring the well-being of their people.

The Communist Party of India (Marxist), faithful to its anti-imperialist legacy and its decades-long struggle alongside the great masses of the exploited in your country, will undoubtedly emerge from this new Congress politically and organizationally strengthened, ready to fight with even greater determination to make that vast nation a fairer society for all its inhabitants.

Long live the 24th National Congress of the Communist Party of India (Marxist)!
Long live proletarian internationalism!

Communist Party of Chile

PROGRESSIVE PARTY OF WORKING PEOPLE, CYPRUS (AKEL)

27.3.2025

Dear Comrades,

The Central Committee of AKEL addresses a warm, militant and fraternal greeting to all the delegates of the 24th Congress of the Communist Party of India (Marxist), as well as to the Party leadership and members. This is certainly an event of high importance in the life of the Party and for all the working class and people of the country, as the CPI(M) is a mass national political party struggling at all fronts for the people.

Your Congress is taking place at a time when our world is boiling explosively. Wars, inequalities, conflicts and antagonisms are born and reproduced on the ground of the deep crisis of capitalism. For the first time in the post-war world, the threats of a new world war, fascism and environmental destruction are more visible than ever before. The reality of modern humanity is dominated by the chaotic social inequalities, as a result of the sharpening of the inter-capital contradiction, but also by the inequalities between states and regions. The vast majority of the population of the planet is faced with realities ranging from the extreme poverty and hunger, to homelessness, job insecurity, poverty and hunger, unemployment and the inability to meet basic needs in health, education.

The surge of militarisation, as seen, for example, in the recent plans and decisions at the level of the European Union to dedicate 800 billion euros to develop military industry and structures, along with the attacks on international law create a real threat to societies.

These threats call for closer cooperation and overcoming differences between broad forces of the left in order to build resistance and avert the disaster. The role of the communist parties that lead struggles to confront numerous challenges and pave the way for peace, democracy, socialism, national independence and sovereignty, is vital in this framework too.

On this occasion AKEL wishes to extend its unreserved solidarity with your struggles and denounce the attacks against your Party and Indian communists. We stand in solidarity with the many mass struggles being waged in which CPI(M) plays a pivotal role.

AKEL on this occasion wishes to reaffirm its resolve to further develop our already close and fraternal relations on a bilateral level as well as within the framework of regional and international meetings of our movement. We highly appreciate these relations which are based on solid and longstanding foundations, on mutual respect and solidarity.

We take this opportunity to express our gratitude for your consistent solidarity with the struggle waged by AKEL and the Cypriot people to terminate the 50- years-long occupation of 37% of our island by Turkey. AKEL's struggle to reunify our people and country under a bizonal bicomunal federation, with political equality according to the relevant UN Resolutions, is continuing under adverse regional and international conditions.

In wishing every success to your 24th Congress of CPIM, we wish to repeat our condolences for the untimely loss of your late General Secretary and highly respected by the international communist movement comrade Sitaram Yechury. His struggles and legacy will live forever.

Comradely greetings,

The Central Committee of AKEL Nicosia

COMMUNIST PARTY OF FRANCE (PCF)

Paris, March 14, 2025

On behalf of the French Communist Party (PCF) and its National Secretary, Fabien Roussel, I wish to welcome your congress and express our best wishes for the success of your work.

PCF stresses its solidarity with Communist Party of India (Marxist). It greets your impressive achievements in Karala.

The French Communist Party, in solidarity with the Indian popular movement fighting against the racist, ultra-liberal, and repressive policies of Narendra Modi, renews its full support for the struggles of the militant forces committed to defending democracy.

The policies of the Prime Minister and his party, the BJP, are an attack on the secular structure of your country's Constitution; they are also one of the most anti-social policies India has ever experienced. Massive privatizations and the destruction of public services have led to an increase in inequality. This has been made possible by attacks on labor legislation and anti-farmer laws. The farmers' struggles have also forced the government to partially back down.

France, Europe, and the rest of the world are experiencing a rise in the reactionary, racist, and warmongering far right. These forces serve globalized capitalism and the bourgeoisie, who, refusing to address the colossal challenges facing humanity, advocate only policies of austerity, confrontation, and the militarization of international relations for the greater benefit of US imperialism. Modi's collusion with US imperialist policies and his complicity with criminal policies led by the far-right Netanyahu Israeli government pose a serious threat. Deepening their military partnership with increased sales of American equipment can only fuel tensions. Faced with the danger of wars and power politics, the French Communist Party has made peace one of its priority battles for collective security, in Europe and around the world. It calls for global security that guarantees each country the right to development and sovereignty, unsubject to capitalist logic and domination. This is why our party believes that true European strategic autonomy and true collective security in Europe cannot be achieved within the framework of NATO, whose imperialist aims, a source of confrontation, provide no security and oppose cooperation between peoples.

In often difficult contexts, our common struggles are more important than ever, working to innovate and build alternatives to capitalism, emancipatory alternatives driven by the desire for social progress for all peoples.

With our full solidarity,

A handwritten signature in black ink, appearing to read 'V. Boulet', written over a horizontal line.

Vincent Boulet
Member of the PCF National Executive Committee
In charge of international relations

COMMUNIST PARTY OF GALICIA (UPG)

Galicia; March 25, 2025

Comrades,

The Galizan People's Union (UPG) sends fraternal greetings to the Communist Party of India (Marxist) as you celebrate your 24th Congress, convinced that the analysis of the current national and international situation will serve to guide the actions of the communist militancy of India in the period ahead, strengthening the presence of the Party and its role in the various struggles of the working class and the people as a whole.

As a founding member of the patriotic front Bloque Nacionalista Gallego (BNG), first political force of the opposition in Galicia, our Party defends, like you, the full sovereignty of our nation and the construction of a just and democratic society for our people, fighting against imperialist interests.

As communists, the Galizan People's Union (UPG) is deeply committed to international solidarity and, as such, we take this opportunity to reiterate our willingness to strengthen the ties between our two Parties.

We look forward to receiving and studying the approved documents and wish all the best to the new party leadership elected at this important congress.

Long live international solidarity!

Duarte Correa Piñeiro
Secretary for International Relations
Central Committee

GERMAN COMMUNIST PARTY (DKP)

To the delegates of the 24th Congress of the Communist Party of India (Marxist)

Dear comrades!

On behalf of the members of the German Communist Party, we greet the delegates of the 24th Congress of the Communist Party of India (Marxist).

Your congress is taking place in a difficult situation for your party and your country. The Hindutva regime of the BJP government is pushing for privatization and social division, for a further restriction of the social and democratic rights of the working people.

But we also know that there is a broad resistance against this policy of democratic and secular forces, which became stronger in the last years. Your party is involved in all these struggles.

The government in the state of Kerala, in which your party is a major participant, is showing alternatives in the fight against poverty, in improvements in health and education.

As everywhere in the world, the capitalist crisis makes clear the need for a move toward socialism.

Both our parties fight against the war policy of imperialism all over the world, which is currently can be seen in the war against Russia through the hands of Ukraine, which in perspective is also directed against socialist China, in the genocide against the Palestinian people in the Gaza strip and in many other places. But imperialism is getting more and more in the defensive as the move towards multi-polarity opens up possibilities for anti-imperialist forces.

We wish your Congress fruitful discussions and good decisions and your party a successful implementation of these decisions.

For peace and socialism!

Long live international solidarity! With communist greetings

Partik Kobele (Chairman)

Renate Koppe (International Secretary)

COMMUNIST PARTY OF GREECE (KKE)

Dear comrades,

On behalf of the Communists of Greece, we would like to convey to you our best wishes for the success of the 24th Congress of your Party, which is taking place under conditions of very dangerous developments for the peoples of the world.

The Communist Party of Greece (KKE) highly values its long-standing comradely relations with the CPI (Marxist) and expresses its solidarity with the working class and the people of India and your struggle against capitalist exploitation and the anti-people, nationalist policies of the Modi government, which has launched a fierce attack on workers' and people's rights and resorted to vandalism, violent attacks and even assassinations against the CPI (M) and the communists in India.

Our party salutes the special contribution of the CPI (M) in organising and leading mass struggles of workers, poor farmers and the self-employed, with international resonance, such as the multi-day nationwide militant demonstrations of farmers against the government's legislation to strengthen the big agro-food business groups at the expense of the landless and small farmers, and the strikes and other struggles of workers in several important sectors of capitalist production.

Dear comrades, we share the same position on the dangerous character of the international developments. Let us note that the imperialist wars, the intensification of imperialist competition in the Indo-Pacific region and the real danger of a nuclear holocaust, together with the anti-people policies of the governments and the bourgeois parties, liberal and social democratic ones, underline the undeniable truth that capitalism gives rise to imperialist war, class exploitation and economic crises that lead to the suffering of the peoples.

Dear comrades, allow us to inform you that the KKE in Greece is waging hard class struggles against the anti-people policies of the New Democracy government and the bourgeois parties. It clashes with the bourgeoisie and its power, the imperialist unions, NATO and the EU.

The national general strike that was organised with great success on 28 February, on the second anniversary of the deadly railway accident in Tempe—a crime that was bound to happen—under the slogan “Their profits or our lives”, is historic. It set

millions of workers, people and youth in motion and the struggle continues.

At the same time, the KKE is leading the people's movement in our country against the imperialist war that is being waged for the division of markets and natural resources, against the US and NATO military bases. We struggle against the involvement of our country in the slaughterhouses of war, for the disengagement of Greece from the imperialist alliances of NATO and the EU, with the people masters in their own land.

We stand with the peoples of Russia and Ukraine, who are shedding their blood due to the imperialist war, while they prospered together in the 70 years of socialism, building a society without exploitation of man by man.

Every day we take many initiatives in support of the people of Palestine, who have the right to have their own independent state on the borders that existed prior to June 1967, with East Jerusalem as its capital. We also stand with all the peoples of the Middle East who are suffering under the occupation and attacks of the murderous state of Israel and its US–NATO– EU allies. We demand an immediate end to the massacre of the Palestinian people in Gaza and the imperialist interventions in Lebanon and Syria.

We struggle for the regroupment of the workers' movement and the formation of the social alliance of the working class and the popular strata, in a direction of struggle against capitalism and the monopolies in order to open the way for the only solution for the people, i.e. the overthrow of capitalist barbarity and the construction of the new, socialist–communist society.

We are aware that today the communist movement is facing many great and new challenges, which require the study of developments, the exchange of views and experiences, the development of joint actions and the development of revolutionary strategy.

With these thoughts, we once again wish you success in the work of your Congress and strength in your struggles.

With comradely greetings,

International Relations Section of the CC of the KKE

TUDEH PARTY, IRAN

14 March 2025

To the Presidium of the XXIV Congress of the Communist Party of India (Marxist)

Dear Comrades,

The Tudeh Party of Iran (TPI) extends its comradely greetings and fraternal solidarity to all delegates and the leadership of the Communist Party of India (Marxist) upon the holding of its XXIV Congress.

The TPI has always appreciated the significant contribution the CPI(M) has brought to the struggle for peace and progress in Asia and more widely internationally. Your principled internationalism has undoubtedly been a source of strength for the struggle of the peoples of the West Asian region.

The bilateral relations that our two parties have developed over at least five decades have further matured, benefiting from the best traditions of working-class internationalism. These relations are built upon the foundation of a mutual deep understanding of the history of our respective struggles as well as our commitments to peace, progress, and international solidarity. We are determined to furnish our fraternal bonds with truthful information and a cogent sober analysis about the developments in Iran, our goals, and the acute challenges that our Party and the wider progressive movement are facing.

We would like to take this opportunity to restate our profound commitment to the longstanding fraternal relations between the TPI and the CPI(M). We fully appreciate the solidarity the CPI(M) has consistently extended towards Iran's working class and their party and bona fide representatives - the TPI - in their struggle for peace, democracy, and social justice.

Your XXIV Congress takes place amid very complex, challenging, and fast changing international conditions. The continuation and sharpening of the crisis of the capitalist mode of production, along with the exacerbation of all its inherent contradictions are among the central characteristics defining the present era. The political-ideological crisis of the capitalist system accompanied by the utter bankruptcy of neoliberal directives have directly resulted in an ever-deepening and widening class divide throughout the world; the acute sharpening of class contradictions; the growth of

fascism and racism; as well as the intensification of exploitation of the working class and vulnerable.

The hugely important XXIV Congress of your party is taking place amid unprecedented attacks from increasingly re-emboldened ultra-right forces across all continents, as well as a dangerously volatile socio-political context and zeitgeist around the world, which is threatening the hitherto prevailing consensus of peace, sovereignty of nations, and wellbeing of humanity.

In India, despite the commendable activism and campaigns of the CPI(M), millions of struggling Indian people remain at the mercy of an increasingly authoritarian, indeed fascistic, BJP regime led by Modi... A regime that has continually and shamelessly hacked away at the founding tenets of the Indian constitution, with all its progressive inclinations that once saw India feted as a force for good in the Global South, supplanting that with a fiercely sectarian and jingoistic brand playing on the fears and insecurities of ordinary struggling Indians and championing bluster and mediocrity instead... And a regime that, despite India's prominence in BRICS and the Non-Aligned Movement, increasingly seeks to align the country with reactionary and pro-imperialist currents internationally.

The escalation of competition and antagonism between imperialist powers for the appropriation and re-division of markets, has already led to wars in various parts of the world as well as the catastrophic degradation of the environment...

Imperialism's war in Ukraine since February 2022, and the genocidal war waged by Israel on the Palestinian people both in Gaza and the West Bank since 7 October 2023 are two obvious examples. The reality that either of these wars could easily expand beyond the frontiers of the nations involved and beyond the scope of conventional warfare - with all the dire ramifications this entails for people beyond the immediate belligerents - underlines our pressing responsibility to oppose the imperialist drive to war.

Dear Comrades, the struggle for peace and progress in the Middle East is currently more urgent than it has been for decades. The forces of imperialism, in a quest to maintain their domination of this hugely important region, steadfastly resist any material progressive change from taking place there - including the recognition and implementation of the most basic and righteous demands of its peoples for justice, as well as full and unencumbered self-determination and sovereignty.

Thus, the peoples of the Middle East are left having to contend with the continued and unrestrained interference of imperialism and its mal-designs on the one hand, and the chokehold exerted by reactionary imperialist-client regimes and the frighteningly reactionary forces of "Political Islam" on the other - the latter of which espouse a brutal and exploitative system that shackles its subjects to what can only be described as feudal norms at best, closing down any route for emancipation let alone development and social progress in those territories in which it holds sway.

In Iran, where governance and the political system is based on "Political Islam", the ruling dictatorship - now one of the contemporary world's longest-running - is zealous in completely blocking-off the path of any form of progressive change, be it political, economic, or social, and inflicts a brutal neoliberal economic agenda paired with a brand of violent sectarianism in its stead, both at home and abroad, to the ruin of Iran and her people. This reality has been starkly illustrated in both the regime's vicious repression of the popular "Woman, Life, Freedom" protest uprising in 2022-23 at home, as well as its more recent appalling posturing and empty brinksmanship in relation to the events in Israel-Palestine at regional level. It is no exaggeration to state that this has brought Iran and her long-suffering people to the edge of an abyss.

However, it remains our Party's view that the enduring lessons of the 1979 Popular Revolution underline that the anti-dictatorship struggle for freedom and social justice and the struggle against imperialist and capitalist policies and foreign intervention, in the defence of national sovereignty, are two sides of the same coin!

Dear Comrades, the Tudeh Party of Iran assures you of its commitment to the furtherance of our bilateral fraternal relations as well as its fraternal support for the struggle of the Communist Party of India (Marxist) for peace, democracy, and socialism.

We salute you in your inspirational struggle!

May victory be yours!

- Long live the Communist Party of India (Marxist)!
- Long live the fraternal relations between the Communist Party of India (Marxist) and the Tudeh Party of Iran!
- Long live international solidarity!

The Central Committee of the Tudeh Party of Iran

COMMUNIST PARTY OF IRELAND (CPI)

The Communist Party of Ireland is delighted to send fraternal greetings to the Communist Party of India (Marxist) who are in the democratic process of debates and discussion in the 24th Congress starting in April 2 in Madurai. Ireland and India share a common history of liberation from colonial exploitation by British imperialism.

India has the world's largest population and correspondingly a large working class reeling under the pressure of the neo-liberal policies of the ruling class. Therefore it is with great interest the world is observing the class struggles developing in India of which CPI(M) is at the forefront, whether it is peasant struggle against farm laws or the workers struggle against labour codes. India is no exception to the rise of the right-wing all over the world and the ruling BJP with its communal agenda is disrupting the unity of the working class on the basis of religion and caste. At the same time Kerala under the Left is showing an alternative trajectory of inclusive development.

Imperialism in the 21st century thrives on surplus extraction and transfer from the periphery to the core. Hence it becomes important that the struggles in the periphery should succeed to defeat imperialism.

With Neo-liberalism on one side and the right-wing communalism and centralisation of power on the other thwarting the working class we hope that CPI(M) will come up with strategies in the form of resolutions to galvanise the working class, sharpen the class struggles and accelerate the movement towards Socialism.

We express fraternal greetings again and solidarity in all struggles of the working class.

“Workers of all lands unite”.

**

ITALIAN COMMUNIST PARTY (PCI)

Dear comrades,

It is with great pleasure that the Italian Communist Party brings its greetings to your twenty-fourth congress.

We are aware that for many years your country has been governed by a right-wing nationalist force, the BJP, we are aware of this today even more than before given that our Prime Minister Giorgia Meloni comes from a political force that finds its historical legacy, albeit remote and indirect, in the National Fascist Party.

The world that we have been facing for a long time continues to invest its strategic choices in war scenarios, privileging the capitalist interests of the financial oligarchies and sending thousands and thousands of people to the slaughter to do and complete the economic interests of multinationals and finance. In the West we are fully aware of the warmongering rhetoric that led to the explosion and war in Ukraine, and today Europe is paying the consequences of its subservience to the Atlantic Alliance, finding itself suddenly abandoned by the United States, first instigators of the war in Ukraine and now pretentious creditors of resources.

We hope that, despite the political culture expressed by your still current government, your country can one day become a promoter of peaceful scenarios and collaboration between peoples, and we know that your battle for workers, for your people and for the oppressed is closely linked to an internationalist vision that we share and support.

Italy in recent decades has unfortunately lost its vocation as a bridge between the West and the East given by its particular position in the Mediterranean, due to the wrong and short-sighted choices of a political class that no longer has the power to decide on itself and its country. Hold together and defend the sovereignty of your country, as we try to pick up the thread that can lead to a recovery of our sovereignty, a sovereignty that is sacred and belongs to the people and that the right-wing nationalist forces have never truly defended but simply used in an instrumental way.

Obviously great responsibilities for the spread of right-wing forces in the world also fall on those liberal elites who pass themselves off as progressives but do not fully consider the problems of the people and workers.

It is up to us communists to bring back a minimum of order and truth in every country.

With best regards and the hope of a better and peaceful future for all we express our best wishes for your congress and the work that will follow.

Fraternal and communist greetings

Italian Communist Party International Department

COMMUNIST PARTY (MARXIST), KENYA (CPMK)

March 9th, 2025

Dear Comrades,

The Communist Party Marxist Kenya (CPM Kenya) extends its solidarity to the Communist Party of India (Marxist) as you convene the XXIV Party Congress in Madurai. This Congress is a crucial moment in the struggle of the Indian working class and peasantry against the reactionary, sectarian, and authoritarian rule that seeks to entrench exploitation and suppress the people's democratic aspirations.

Your fight against right-wing authoritarianism and imperialist subjugation resonates deeply with our own struggle in Kenya. We recognize that capitalism and imperialism continue to ravage the Global South, deepening social inequalities, enabling corporate plunder, and fueling reactionary forces. In this shared battlefield, our Parties stand firm in advancing the cause of socialism, guided by the principles of Marxism-Leninism and the historic mission of the working class.

As you deliberate on the political resolution, the organizational report, and the path forward, we express our full confidence that the Communist Party of India (Marxist) will emerge from this Congress even more resolute and united in its historic task. The road to socialism is never without obstacles, but with proletarian internationalism as our guiding principle, we shall overcome.

We look forward to strengthening the bonds between our Parties in the common struggle against imperialism, for national liberation, and for a socialist future. The working peoples of the world shall be victorious!

Long live Communist Party of India (Marxist)!
Long live Communist Party (Marxist), Kenya!
Long live proletarian internationalism!
Workers and Peasants of the World Unite!

**International Department, Central Organising Committee (IDCOC)
Communist Party (Marxist), Kenya**

COMMUNIST PARTY OF NEPAL (UNIFIED SOCIALIST)

Dear Comrades,

On behalf of the Communist Party of Nepal (Unified Socialist), we extend our warmest revolutionary greetings and heartfelt solidarity to all of you on the occasion of your XXIV Party National Congress, to be held on April 2-6, 2025, in Tamilnadu, India. We deeply admire the CPI(M)'s unwavering commitment to organizing and mobilizing the working class and oppressed masses in their struggle for livelihood, social justice, freedom, equality, social liberation, democracy and socialism. Your Congress comes at a critical juncture, not only for India but for the global progressive movement. We stand united with you in the fight against exploitation, inequality, discrimination, oppression, neoliberalism, hegemony and neofascism.

In Nepal, the communist movement faces its own challenges. Despite these difficulties, we remain persistent in our commitment to uniting the left forces and strengthening our collective struggle against rightist deviation and opportunism within the communist movement as well as against the domination of the comprador capitalism, the big bourgeois, monopoly capitalism and imperialism. Last year, in July, 2024, we successfully concluded our 10th National Congress, which unanimously adopted a comprehensive Socialist Program. This historic step has strengthened our determination to fight for a just and equitable society and socialist transformation. We firmly believe that the outcomes of your XXIV Party National Congress will not only strengthen the Left and democratic movement in India but will also make a meaningful contribution to the advancement of the International Communist and Progressive Movement, both in the region and globally.

Once again, we extend our warmest wishes for the successful conclusion of your Congress.

Let us continue to stand together in our shared commitment to international solidarity, the pursuit of peace, social progress, and socialism.

With revolutionary greetings and fraternal solidarity,

Madhav Kumar Nepal
Chairman, Former Prime Minister of Nepal

AWAMI WORKERS PARTY, PAKISTAN (AWP)

03.03.2025

Greetings to Central Committee and Comrades of the Communist Party of India (Marxist).

On behalf of the Federal/Central Committee of the Awami Workers Party Pakistan, I convey our warm fraternal greetings on the occasion of XXIV Congress of the Communist Party of India (Marxist) going to be held on 2nd of April, 2025 in Madurai, Tamilnadu. We greet all the members of CPI(M) and reiterate our heartfelt solidarity. We believe that the communist movement in India has a long and glorious heritage inspiring the entire working class movement.

Comrades- the people of Pakistan are facing the religious extremism on one hand and the onslaught of political leadership representing feudal tribal remnants and the bourgeoisie, dominated by military establishment under the umbrella of imperialist countries. The Awami Workers Party as a Party of Workers, Peasants and entire working people is struggling for a truly secular democratic society and a society being free from exploitation through socialist orientation with Marxist Leninist ideals.

Internationally the fascist face of American and European imperialist countries is fully exposed by their naked support of Israel and massacre of thousands of people in Gaza, Palestine, aggression in Lebanon, Syria, military support to continue war in Ukrain, expansion of NATO etc. Awami Workers Party believes that a strong anti-imperialist movement is required to stop the expansionist policies of imperialist countries. AWP supports BRICS and good friendly economic and political relations with neighboring countries, more particularly between India, Afghanistan and Pakistan and resolution of all disputes by mutual negotiations.

Comrades- we are confident that fraternal bonds of friendship between our two parties will be further strengthened through this XXIV Congress of CPI(M). We also expect development of close fraternal relations amongst the communist and workers parties internationally and further suggest a meeting of workers and communist parties at regional level to share experiences and develop coordination with common heritage.

We wish all success for the congress.
Long live unity of the working class
Long live peace and friendship.

(AKHTAR HUSSAIN)
President, Awami Workers Party, Pakistan

COMMUNIST PARTY OF PAKISTAN (CPP)

Dear Comrades,

The Communist party of Pakistan extends its cordial greetings to the XXIV congress of CPI(M) , its delegates and the current leadership on this historic occasion.

It is 100 years of the communist movement in the Indian subcontinent, a century of struggle and fight for the working class.

We in Pakistan Communist party always consider ourselves as part of the Indian subcontinent communist movement and Indian Communist party as our maternal party. Despite the partition we remained connected ideologically and continued our struggle in the most difficult situation in Pakistan.

We are sharing the historical and cultural background but above all the common ideology of Marxism-Leninism and our fight is common for the working class supremacy not only in our region but in the whole world.

Communist party of Pakistan always advocated a good relationship between our two countries and between our people and is of strong opinion that Pakistan should have good relation with all its neighbours, specially with India.

We hope that your 24th congress will adopt a revolutionary program for India and the working class.

The CPI(M) will continue to play a strong role in the world communist movement and the relationship between our parties will be stronger than before.

Long live Marxism Leninism
Long live friendship and solidarity

With our fraternal greetings,

**On Behalf of the CC
The Communist Party of Pakistan**

PALESTINIAN PEOPLE'S PARTY (PPP)

To the leadership of CPI Marxist

Dear comrades

On the occasion of holding the 24th congress of your Party, allow us on behalf of the leadership and all members of PPP to convey to you and through you to all members and supporters of your party our best wishes and for every success of its works, hoping that the results will be fruitful for the party , the working class and the friendly people of India.

Our party and people highly appreciate your firm position of solidarity with the just struggle of our people for ending the occupation and self- determination especially in this crucial moment where the occupation state is committing a genocide against our people in Gaza and West Bank.

We hope also that our good relations will improve for the benefit of our two peoples

Once again receive our best wishes.

PORTUGUESE COMMUNIST PARTY (PCP)

Lisbon, March 25 2025

Dear Comrades,

On behalf of the Portuguese Communist Party, we convey warm greetings and wishes of great success for the proceedings of the XXIV Congress of the Communist Party of India (Marxist). We are confident that your Congress will be a high point in strengthening the struggle of your Party and of the working people of India, in these difficult times with which the peoples of the world are confronted.

The structural crisis of capitalism and the relative decline of US and other imperialist powers continues to intensify, posing serious threats for the peoples of the world. The election of US President Trump is an expression of that crisis and decline, and at the same time a factor that could contribute to escalate them. The conflicts and clashes between different factions within the US ruling class and with the imperialist European powers do not reflect any real attempts to change the nature of imperialist exploitation, plunder and aggressiveness against the peoples of the world. They are the expression of the growing realisation that the policies of neocolonial pillage associated with the capitalist globalisation that have marked the past decades are becoming unsustainable. At the same time, they reflect those powers' profound difficulties in charting a new course that can maintain their policies of plunder and domination. In this context, militarism, authoritarianism, fascistic trends, assaults on the peoples' rights and living standards and war are increasingly becoming central to the policies of these ruling classes. Their fundamental unity in sustaining the genocide against the Palestinian people and in escalating war in the Middle East is a clear sign of the profoundly reactionary and warmongering nature of imperialism, whether of the US, of the UK or of the European Union.

The development of a vast and complex world-wide process of realignment of forces, with the relative decline of the USA and other imperialist powers gathered in the G7 and the quick ascent of new countries, first and foremost the People's Republic of China, but also India and other countries, is accelerating the contradictions inherent to a world whose financial system is controlled by the US. This is an important process, which can open up new possibilities for resistance to the rule of imperialism, a possibility that the imperialist powers intend to prevent at all costs. But it is crucial that the workers and peoples of the world make their voice and demands heard, both to halt the slide towards a major confrontation in the nuclear age and to defend their class interests within this ongoing process. In this sense, the role of Communist Parties is crucial in organizing and providing the path to the mass struggle.

Portugal does not escape the effects of these main tendencies. For the second time in one year, early elections have been convened, and will be held on May 18. A massive reactionary campaign is underway, to make working people pay the cost of the crisis and to impose the authoritarian militarisation which the European Union has embarked upon. All forms of falsehoods, manipulation, promotion of far-right forces and provocations are already underway. This does not prevent our Party from being committed to organising and intensifying the workers' struggle against the right-wing policy, which the parties at the service of big capital and the EU agenda want to continue impose. And also to promote the struggle for peace and the solidarity with all peoples who are confronting the imperialist onslaught, from Palestine to Socialist Cuba. We view these elections as yet another front in an intense and difficult overall struggle against the forces of reaction and war.

In the challenging times that we live in, it is of the utmost importance to strengthen the unity, cooperation and converging struggle of the Communist and Workers' Parties, and of these with other anti-imperialist and peace-loving forces. It is essential to unite all forces that stand for peace and social progress, and against imperialism and war, in a common front that can halt and reverse the dangerous course that the imperialist ruling circles are imposing upon the Humanity.

As serious dangers persist resulting from the exploitative and aggressive offensive of imperialism, the action of workers and peoples continues, with the potential to develop the struggle for sovereignty and democratic rights, for progressive and revolutionary transformations.

It is with this confidence that our Party held its XXII Congress, last December, under the slogan «Force of April. Taking the initiative, with the workers and the people. Democracy and Socialism», and remains deeply engaged in Portugal to the struggle for a patriotic and left-wing alternative, towards an advanced democracy with the values of the April Revolution, for socialism.

Expressing our solidarity with your struggle, we reaffirm our desire to strengthen our traditional bilateral relations of friendship and cooperation with the CPI(M). We renew our wishes of great success for your XXIV Party Congress.

Long live the friendship between the PCP and the CPI(M)!

Central Committee of the Portuguese Communist Party

COMMUNIST PARTY OF RUSSIAN FEDERATION (CPRF)

The Central Committee of the Communist Party of India (Marxist)
Delegates to the 24 Congress of the Communist Party of India (Marxist)

Dear comrades!

Central Committee of the Communist Party of the Russian Federation salutes the delegates to the 24th Congress of the Communist Party of India (Marxist), its members, allies and supporters in struggle for common people and their rights.

International situation worldwide requires concentration and coordination of efforts by all communist and workers parties as well as correct analysis and unity in assessments of common issues. We all have to do it and undoubtedly the CPI(M) Congress will succeed in these issues apart from electing a new leadership which leads it towards new battles for socialism, equality and brotherhood.

The CPRF expresses its solidarity with your struggle for our common ideals and true democracy in India

We wish the 24th Congress successful work. We are confident that Congress decisions will further strengthen the Party ranks and improve its prestige in the society.

With fraternal greetings,

**Chairman,
CPRF Central Committee**

COMMUNIST PARTY OF SRI LANKA (CPSL)

14.03.2025

Dear Comrades,

On behalf of the Communist Party of Sri Lanka (CPSL), I would like to convey our warmest fraternal greetings to the leadership and membership of the Communist Party of India (Marxist) on the occasion of your 24th National Congress to be held in Madurai, Tamil Nadu, from 2–6 April 2025.

Our two parties have had long-standing cordial and fraternal relations. We note that this 24th National Congress will be the first since the passing of Comrade Sitaram Yechury, who we considered a close friend, great leader, true internationalist, and an inspiration to the Communists of Sri Lanka. We cherish the memory of Comrade Sitaram and look forward to strengthening our existing relations with your party.

Dear comrades, as you well know, the world is currently undergoing a deep economic crisis, accompanied by a restructuring of international relations. In the last few years, our region has seen immense instability – from Sri Lanka to Pakistan to Bangladesh. In light of the second Trump administration's aggressive foreign policy, we expect South Asia and the Indian Ocean region to be a hotspot of imperialist intervention. As your Draft Political Resolution acknowledges, the contradictions between the US and China are intensifying, socialist countries are resisting, and anti-imperialist movements around the world are starting to move. In this context, we believe it is critical for the communist parties of our region to strengthen channels of communication and coordinate our actions.

Given the size of the Indian working class and peasantry, what happens in India is critical to the future of the Communist movement and the international anti-imperialist movement. We applaud the leadership that your party has given to the Indian people in the struggle against communalism and neoliberalism. We acknowledge that this has been done under the arduous circumstances of a right-wing government that uses sectarianism and anti-democratic measures to suppress people's movements. Your Draft Political Resolution's call for strengthening Left unity and rallying all Left and Democratic forces is a sentiment that our party shares as well. We are confident that this 24th National Congress of your party will open a new chapter of struggle for socialism, democracy, and a better world.

Long live fraternal solidarity between CPSL and CPI(M)! Long live internationalism!
Long live the Communist movement!

Dr. G. Weerasinghe , General Secretary

JANATA VIMUKTI PERUMANA, SRI LANKA (JVP)

24-03-2025

Members of the Presidium,
Delegates of the XXIV Congress of the CPI (M),

Dear Comrades,

We, the Central Committee of the Peoples Liberation Front -JVP Sri Lanka send our warmest greetings to the XXIV Congress of the Communist Party of India (Marxist), which will be held between 02nd and 06th April 2025 in Madurai, Tamilnadu. At this remarkable occasion we would like to take this opportunity to remember and pay our respect again to the former General Secretary of CPIM, Comrade Sita Ram Yechury for his life time for the people's struggle.

According to the information a new political resolution and organizational report will be adopted and a new leadership will be elected. We believe that the XXIV Congress would strengthen the work carried out by the Communist Party of India (Marxist) to promote your influence among people in their struggle for Socialism in your country and for the peaceful, just, equitable, democratic, and prosperous new world order we all aspire.

Dear Comrades, your Congress is taking place at a critical time when imperialists are carrying out oppression, especially in the Asian, African and Latin American regions. With the return of Trump to the US political helm, the imperialist atrocities seems to have taken a more aggressive turn. The only way to end imperialism is to overthrow capitalism and the only people who are capable of doing this are the proletariat organized with Marxist-Leninist theory and practice.

Dear Comrades, we greet your XXIV Congress as a partner of the new progressive government we established with the votes of the majority of the masses in Sri Lanka. We formed a peoples' front - "National People's Power' (NPP) - rallying our country's progressive and left-oriented forces. With a massive campaign lasting for more than two years and covering the whole island, we were able to form a people's government drive away the vicious, gluttonous, plunderous regimes that ruled this country for more than seven decades. In this endeavor, we are glad to acknowledge the enthusiasm and support of the people in the North, East, West, South and especially

those who employed in the plantations. We believe our victory would be an example for all Marxist-Leninist movements that struggle to bring liberation to their people.

We again express our revolutionary greetings for the XXIV Congress of the Communist Party of India (Marxist) with the hope of strengthening the ties between our parties in the spirit of authentic the same internationalism and wish you success in the struggle for Socialism.

Long live the Communist Party of India (Marxist)! Long live Internationalism!

Fraternally,
On behalf of the Central Committee,

**Tilvin Silva, General Secretary,
People's Liberation Front -JVP Sri Lanka**

SOUTH AFRICAN COMMUNIST PARTY (SACP)

Dear Comrades and Friends,

On behalf of the Central Committee and the entire membership of the South African Communist Party (SACP), we extend our warmest revolutionary greetings and unwavering solidarity to the leadership and delegates of the Communist Party of India (Marxist) gathered for your XXIV Congress.

We are honoured to share a message of support on this important occasion. As your friend and ally we continue to stand with you as we confront fascism, capitalism and imperialism. We also stand with you as we celebrate the creation of a more internationalist world on the path of communism.

We wish all delegates the very best as you undertake critical discussions to analyse the current political situation, adopt your political and organisational resolutions, and elect new leadership to carry forward the historic mission of your Party. India currently finds itself in a difficult place, or, should we say, the poor, marginalised and working class who form the majority of Indians citizens, find themselves under a regime that seems to put the interests of the elite and of a chosen few above those of the collective nation.

These conditions under which you find yourselves — an increasingly repressive and chauvinistic ruling party in India — are extremely challenging. Yet, the courage, discipline, and clarity of purpose with which the CPI(M) confronts these conditions is a testament to the resilience and rootedness of your Party among India's workers, peasants, and oppressed peoples.

Thus, the SACP recognises the CPI(M) as a steadfast and principled force in the international communist movement. Indeed, your consistent struggle against neoliberalism, religious sectarianism, right-wing authoritarianism, and imperialist domination has been an inspiration to us and to many around the world.

As South African communists, we are painfully familiar with the brutal consequences of racial and sectarian politics, and we fully understand the danger posed by forces that seek to divide the working class along lines of religion, caste, ethnicity, or language. We salute the CPI(M) for its unyielding commitment to class unity, social justice, and democratic rights in the face of such adversity. We further note with

appreciation your Party's important work in mass movements, including the mass women's movement and trade unions, and your efforts to build the broadest possible alliances in defence of democracy and the working class. These efforts are translated into your presence both on the ground but also within the corridors of political and state power.

We face common challenges across the Global South — deepening inequality, capitalist underdevelopment, ecological destruction, and the imperialist agenda of global monopoly capital. In this context, the role of communist and workers' parties in building solidarity, developing alternatives, and leading the masses in the struggle for socialism is more vital than ever. The SACP is committed to deepening our bilateral relations with the CPI(M), learning from your rich experience, and contributing to a renewed and united international communist movement. We therefore look forward to your deliberations from this upcoming congress.

As you deliberate in Madurai, please know that your South African comrades are following your work with admiration and solidarity. May your XXIV Congress be a great success, and may it strengthen the CPI(M) for the battles and breakthroughs ahead.

Long live the Communist Party of India (Marxist)!
Long live international working-class solidarity!
Forward to socialism!

**South African Communist Party (SACP)
15th Congress Central Committee
March 2025**

COMMUNIST PARTY OF TURKEY (TKP)

March 6, 2025

Dear comrades,

We would like to salute the XXIV Congress of the Communist Party of India (Marxist). During its long and rich history, CPI(M) has been the vanguard of the Indian working class for many decades. As a party with a strong base among the Indian people, it has accumulated important experiences. The party has been carrying the torch of socialism in one of the most important countries not only of Asia but also of the whole world. And the struggle is going on with a strong social support.

The fact that India is governed by a reactionary, religious sectarian party makes the current situation even more arduous. The Modi government has adopted authoritarian methods, similar to those in an increasing number of countries. Another issue is that this government is cooperating closely with several imperialist countries and trying to benefit from the fierce competition between them.

These facts make the struggle for socialism even more crucial. The task of CPI(M) as the vanguard in this struggle is of utmost importance. In a country with a vast working class and a rich history of social struggle, strengthening of CPI(M) will be a source of inspiration for all communist forces in the world.

With the new US administration and rapidly evolving developments in the international arena, we may witness a new era, in which the international correlation of forces can change drastically. Under these circumstances, international solidarity and international cooperation between communist parties become even more crucial.

CPI(M) and the Communist Party of Turkey have always had close relations in the past. We are confident that these relations and cooperation between our parties will improve in the near future, as the international communist movement has to increase its influence in world politics. We are ready to do our part in this regard.

With our comradely greetings,

**Communist Party of Turkey
Central Committee**

COMMUNIST PARTY OF USA (CPUSA)

Dear comrades,

The Communist Party USA extends its warmest fraternal greetings to the 24th Congress of the Communist Party of India (Marxist) and expresses its resolute solidarity with the struggles of the working and oppressed peoples of India. We further congratulate the Party on the recent conclusion of its 24th State Congress in Kerala.

More than ever, the convergence of corporate and neo-fascist organizations in India and the United States calls for deepened fraternal solidarity and collaboration between our Parties. In its course of development, the American extreme right has strongly emphasized its relationship with the BJP as a pillar of its legitimacy. A program of mutual interference, termed “MEGA” by PM Modi as a nod to the MAGA movement, has facilitated far-right advances in both India and the United States at the behest of the most chauvinistic elements of monopoly capital. This program has developed through years of targeted VHP organizing among the Indian diaspora, and saw significant elaboration of its economic and geopolitical terms during the February 13th meeting between Trump and Modi.

The CPUSA firmly defends the CPI(M) in the face of ever-expanding codependence of MAGA and Hindutva forces. As the Trump administration relies on the BJP as a keystone of its imperialist ambitions and the Modi government and Trump regime take their cues from each other, our Parties stand shoulder to shoulder in opposition. Comrades, we look to your heroic advances in revolutionary strategy and working-class governance not only as inspiration, but as a bulwark in the struggle against reaction.

We wish a productive and invigorating 24th congress to the delegates and members of the CPI(M), and salute your contributions to the shared struggles ahead.

Long live working-class internationalism!

International Department, Communist Party USA

COMMUNIST PARTY OF VENEZUELA (PCV)

Caracas, March 21, 2025

Dear Comrades
Communist Party of India (Marxist)

The Communist Party of Venezuela sends warm Marxist-Leninist greetings to all the militants, friends and sympathizers of the glorious Communist Party of India (Marxist) on the occasion of its XXIV Congress, to be held April 2-6 in Madurai, Tamilnadu.

Its Congress is taking place at a time of profound crisis of the world imperialist system, which in the framework of its fierce competition for the control of resources, markets and trade routes, increases wars, invasions, policies of interference, and encourages the advance and strengthening of ultra-reactionary political expressions such as the BJP.

Like the people of India, the Venezuelan people are also struggling against an authoritarian government strongly influenced by conservative religious sectors, which today is attacking their democratic rights and social conquests. Contradictorily, this type of governments, deeply reactionary due to their openly capitalist and anti-popular character, present themselves as “anti-imperialist” alternatives due to their supposed contradictions with the powers of the traditional imperialist pole.

From the Communist Party of Venezuela (PCV), we reiterate our solidarity with the working people of India and with the Communist Party of India (Marxist), in their struggle against the reactionary government of Modi and the BJP, and for the conquest of more rights and liberties for the working class.

It is propitious the occasion to express our gratitude for the solidarity of the CPI(M) with our organization and the Venezuelan working class, in the face of the governmental onslaught against the democratic right to exist of the PCV and the restrictions to the trade union freedoms in our country.

From the PCV, we wish much success in its XXIV Congress, to the new Central Committee that will be elected, and we are sure that from this congressional process the PCI (M) will come out much stronger and with a greater influence in the class struggle in India.

Long live the XXIV Congress of the CPI(M)!
Long live proletarian internationalism!

Central Committee of the Communist Party of Venezuela
